

# starmix bohrfixx

Dusty drilling is history

**Patented**  
**NOVELTY**  
Made in Germany

The new **Starmix bohrfixx** is a patented vacuum cleaner nozzle for the **extraction of dust** directly at the drill hole.

**+ adapter with flexible insert**

Nearly all usual vacuum cleaners, also household vacuum cleaners, can be connected  
(Connection diameters  $\varnothing$  32 - 42 mm)  
Note: Vacuum cleaners with a filter cleaning system based on a „air-rinsing-back Principle“ are exepcted !!!

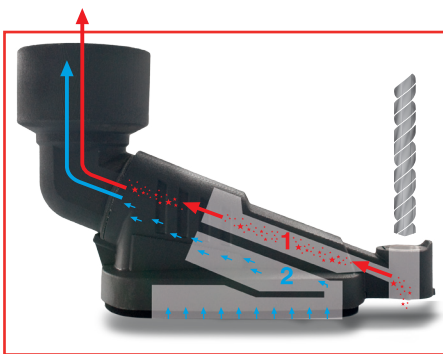

**+ nickel-plated steel drilling collar**

For all usual drills up to  $\varnothing$  12 mm been suitable  
no wear

**+ patented „2-chamber system“**

Absolutely dust free working  
No drilling dust residue at the wall  
Reliable grip at wall and ceiling  
„sticks like a limpet“ on nearly all surfaces  
Working by oneself, reliable and without any assistance  
- also overarm.

## The 2-Chamber system:

**1st chamber:**

...suctions completly the accured drill dust directly at point of origin.  
Even out of the drill hole !  
No drill dust residue on walls and wallpapers !

**2nd chamber:**

... produces a strong negative pressure, which sucks the **bohrfixx** firmly at wall and ceiling. Even on rough underground!  
Up to 5 kilos retaining strength (in connection with a Starmix vacuum cleaner)  
it holds also a 5m hose to the ceiling.

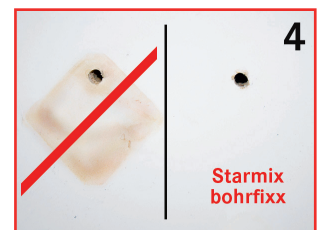

Push the enclosed rubber adapter into the intake fitting of the **bohrfixx**.

Connect the suction hose of the vacuum cleaner to the **bohrfixx**.

Switch on the vacuum cleaner and place the **bohrfixx** to the desired position (at wall or ceiling)  
Run the drill through the drilling collar.

Absolutely dust free, residue-free drilling at walls, wallpapers and floors.
